

Wells South Of Town Get Good Shows

AUTRY WELL GAUGES 292.2 ON NINE-HOUR TEST ON FLOW AT 3,436-FOOT DEPTH

Official gauge was put on two area oil wells that have been attracting considerable attention this week. Official gauge of 292.2 barrels of 43 gravity oil per day on the basis of a nine-hour gauge has been filed for the V. E. Autry et al No. 1 W. A. Minter estate, 16 miles south of Hamlin, Jones County's biggest pool opener of the year.

Production was on flow through 40 perforations in the Swastika sand from 3,436-43 feet, with 140 pounds pressure on casing and 240 on tubing through 5-16 choke.

Gauge of 77.55 barrels per day on pump from pay at 3,014-26 feet has been filed for the Eastland Oil Company No. 3 Chittenden estate, eight miles southeast of Hamlin, located 1,020 feet from the south and 330 feet from the east line of Section 19 Louise Kratz Survey 335.

In the northwest corner of the county, four miles east of Hamlin, the Bennett & Sorrell No. 1 William E. Eoff, 3,200-foot cable tool wildcat, 50 feet from the east and 324 feet from the north line of the northeast quarter of Subdivision 2, Austin & Williams Survey, League 338, is drilling ahead below 3,085 feet after under-reaming casing to 3,085 feet.

McCAULEY VOTES ON \$20,000 SCHOOL BONDS SATURDAY

Election has been called for Saturday at McCauley to vote on the question of issuing \$20,000 in bonds for the McCauley schools. A good representation of taxpayers in the McCauley Independent School District is scheduled to cast ballots.

The \$20,000 proposed in the bond issue would be used for repairs on the present school buildings, providing a water system for the school and for erection of a gymnasium. Work on all three of the projects would be started soon and completed before the present school term shall have ended, school officials at McCauley state.

About a year ago a bond issue was voted on for the erection of a gymnasium, but after the bonds were voted it was found not enough money was provided for the erection of the building.

Walter Snead Goes to Coleman Safeway Store

Walter Snead, familiar figure in the grocery stores of Hamlin for several years, has recently assumed the management of the Safeway Store at Coleman. The Herald learns this week. He was connected with the Hamlin Safeway store for several years.

Snead, his wife and two children, Billie Lee and Dorothy Louise, have moved to Coleman to make their home.

TALKIN' IS CHEAP

When two old cronies from Arkansas get together after nearly two score years, there's plenty buzzin'.

That is the testimony of Mrs. W. L. Boyd, who has had to endure again the tall tales of her husband and W. J. Wise, who has been a guest in the Boyd home for several days. Wise is from Lockburg, Arkansas.

Boyd and Wise took Horace Greeley's advice back in 1909 and came west. They drove a pair of mules hitched to a wagon, taking 23 days to make the trip from Arkansas to Hamlin. Camping along the road wherever nightfall caught them, time meant little to the pair and their mules.

Wise, who within a few years returned to his native state, says Boyd arrived at Hamlin with the wagon and team and five dollars in his pocket. Boyd remarks: "Look at me now: I don't even have the mules!"

H. L. WILLIAMS OF RALLS NAMED HIGH SCHOOL PRINCIPAL

H. L. (Harold) Williams was last week elected principal of Hamlin High School to succeed H. P. McLaughlin, who served one year. McLaughlin resigned in July to enter private business.

Williams, who was recently discharged from the Army, served for four years in the Medical Corps, most of which period was spent in Italy. He went with combatant units to Italy during the war, and was retained there for duty after the close of the conflict.

A graduate of Hardin-Simmons University, Abilene, the new principal holds a BA degree and has 30 hours of work on his MA degree at Texas Technological College, Lubbock. He was in the teaching profession for several years before entering the service, having taught for nine years at Ralls.

Mrs. Williams, also holder of a BA degree from McMurry College, Abilene, will teach in the grade school at Hamlin.

The Williams have purchased a house in West Hamlin and have moved to town already to make their home.

District Meet Here Set By Foursquare Church

An all-day district fellowship session for Foursquare Gospel Churches of the Wichita Valley District will be held next Monday with the Hamlin Foursquare Gospel Church, it was announced this week by Lucille Liles, minister of the local church. Rev. Mary Fulton of Stamford, district superintendent, will speak at the evening session.

A picnic will be held at the church for representatives of the six churches in the district.

All of Equipment for New Laundry Received

All machinery and equipment for the new Ideal Steam Laundry, being opened just south of The Herald office, has been received, according to Clyde Huff, proprietor of the new business enterprise for Hamlin.

Workmen from Dallas are busy installing the machines and other equipment this week, and probably formal opening date will be announced in next week's issue of The Herald, Huff says.

VFW-Oilers Nine Takes Swenson Game 4 to 1

Swenson softball team went down before the pick of two Hamlin teams Sunday afternoon at the city ball park, 4 to 1, when all-stars of the Veterans of Foreign Wars and Oilers combined for batting practice.

Loy Hubbard, pitching for the locals, allowed only two hits. Swenson scored its one run when a batter who gleaned one of the two hits made it to first, stole two bases, then scored on an overthrow.

Rains Give New Life To Area Crops

ROW STUFF AND PASTURES OF SECTION RESPOND TO OVER TWO INCHES OF RAIN

Row crops in the Hamlin area have already taken on new life since the drouth-breaking rains of last week, and promise of good crops was revived for producers of the section. Pastures on ranches are responding to the needed drinks, which assure the cattlemen that further shipment of stock from the region because of lack of rain will not be necessary.

Rains last Tuesday, Wednesday and Thursday of 2.08 inches (which was the total for the month of August) were followed Monday and Tuesday of this week with .05 and .78 of an inch for the respective days, according to gauging of W. C. Rountree, government gauger at Hamlin. Heavier rains in nearby communities were reported. Y-6 Ranch, six miles north of town, received a two-inch rain Monday.

Total rainfall for the year at Hamlin is 8.21 inches. Precipitation for the first eight months of the year was 7.38, less than the usual average rainfall of 15.50 inches for the same period. Annual average for the five-year period of government gauging in Hamlin is 23.19 inches.

By months, Hamlin has recorded the following rainfall during 1946: January 1.35, February .36, March .30, April 2.56, May none, June 1.46, July .27, August 2.08 and September .83.

Twenty-one inches of water has been caught in the new Hamlin Lake south of town in two weeks.

Hamlin Junior Football Team to Match Games

Hamlin Junior High School's football team will have at least four matched games with area schools this season, it was announced by Coaches L. B. Howard and M. D. Carlton this week.

Training for future play with the high school Pied Pipers, the Mice are destined to make a good showing, their coaches declare.

Two games with Rotan teams are already definitely arranged, although dates have not been set, and two games with other teams are pending.

Mrs. J. Earl Glenn and daughter, Martha, of Corinth, Mississippi, and Mrs. C. C. Copenhagen of Tuxedo were overnight guests of Mrs. J. D. Farrow last week.

HAMLIN TEACHERS BEING PAID MAXIMUM SALARIES UNDER STATE AID REGULATION

Hamlin Schools are paying the maximum teacher salaries permitted by the State Board of Education, it was revealed this week when The Herald made inquiry into the salary schedule of local school teachers. And the salaries are on a par with other schools of the state that operate under the state law.

Hamlin school board is willing to raise local teachers' salaries, but state aid would be lost if the state plan is not followed—which aid is necessary to supplement the local pay in order to keep the local system operating, according to Hamlin school officials.

But a raise of \$300-per-year is in sight for Texas teachers, effective with the new school terms, if present program being sponsored by the State Teachers Association goes through. Change in the state aid law by the State Board of Education will have to be made to permit the increase in base pay for teachers.

Present law sets a ceiling for salaries to be paid teachers if the school paying the teachers qualifies for state aid. That base pay is \$135, and this is the basic amount paid to Hamlin school teachers, as well as teachers in other schools operated under the state aid plan.

HAMLIN PRINCIPAL

H. L. (Harold) Williams, above, is the new high school principal, elected last week-end by the Hamlin School board of trustees. Williams, an ex-service man, has had a number of years of experience in the teaching profession. He comes to Hamlin from Ralls.

Tex Moore Vacations Near Yellowstone, But Yearns for West Texas

Tex Moore, familiar old-timer of West Texas, who has painted, written and talked himself into the hearts of thousands of people of the southwest, writes The Herald that he is heading for home this week after spending several weeks in Montana during the summer season.

He and his wife were located near the entrance to Yellowstone National Park in Wyoming, which, Tex says, had the largest crowds of visitors on record this year. His description of the streams and mountains, abundant in fish and wild life, makes us want to go vacationing in the Northwest some time.

Tex declares he has met a number of imminent people during his stay in Montana, including Admiral Nimitz, Rear Admiral Richard Byrd, Fred Garlow, a grandson of Buffalo Bill Cody, Mrs. John Cody of Florida and numerous others. "Nothing snobbish about any of them," he writes.

"Having a grand time, but we are getting homesick for Texas," the Hamlin resident concludes.

Son Born to Reed Calhouns.

A son, William Reed Calhoun III, was born to Mr. and Mrs. W. R. Calhoun Jr. of Route 2, Hamlin, August 29 at the Stamford Hospital. Mrs. Calhoun is the former Mary Jo Sills. Grandparents are Mr. and Mrs. W. R. Calhoun of Dallas and Mrs. Anna Bell Sills of Celotex.

More Than 1,100 to Start School Sep. 12

LEGION, AUXILIARY OFFICERS WILL BE INSTALLED IN RITES

New officers for Hamlin's Keefer-Patterson post of the American Legion and those of the American Legion Auxiliary of the Hamlin post will be formally installed in a county-wide ceremony to be staged next Thursday evening at Anson, it was announced this week by officials of the local post.

The installation rites will see the inauguration of all officers of the three American Legion posts and American Legion Auxiliaries simultaneously in an appropriate ceremony starting at 7:30 o'clock Thursday evening at the city park. J. R. Gleaton, district commander of Stamford, will be in charge of the ceremonies.

Local officials point out that not only the officers, but all members and friends of the post are invited to attend the ceremonies.

Officers of the Keefer-Patterson post to be installed, along with those from other two posts at Stamford and Anson, are: Joe L. Culbertson, post commander; Brad Rowland, first vice commander; Roy Flowers, second vice commander; Fred B. Moore Jr., third vice commander; Aubra L. Wilkins, fourth vice commander; Fred C. Smith, adjutant; W. F. Martin Jr., chaplain; Arlie Cassle, service officer; and J. T. Miller, sergeant-at-arms.

NAVY TAKES FIRST GAME TUESDAY IN SERIES WITH ARMY

While it hasn't been settled who won the war—the Army or the Navy—Hamlin soldiers and gobs are determined to determine the winner on the softball field. But it's going to take more than one game to do it; in fact, it may take three.

Anyway, the Navy it one game up on the soldiers after Tuesday night's meeting at the city ball park. The game ended 4 to 0. And nearly 500 cash customers said it was a real fight until time was up after seven innings.

Woods, pitching for the Navy, walked four men and struck out three. "Run!" McCoy, tossing them for the Army, walked two and fanned three sailors.

Second game between the two fast clubs will be staged this (Friday) night. If the Army wins, the "sugar" game will be staged at 3:30 Sunday afternoon.

Box score on Tuesday night's classic follows:

McCoy Station Installs Lift

Installation of a hydraulic washing and greasing car lift was completed last week-end by McCoy Brothers Service Station, north of The Herald office, where the Texaco-vending brothers are serving car owners with up-town service on automobiles.

HIGH SCHOOL STUDENTS TO BE REGISTERED THIS WEEK AS CLASSES BEGIN TUESDAY

Eleven hundred and seven school students enumerated in the Hamlin Consolidated Independent School District are slated to return to classes over the week-end, according to Superintendent of School I. R. Huchingson. This is an all-time record enrollment for the Hamlin district, occasioned by the recent consolidation with Hamlin of six area common school districts.

Because of uncompleted work on the new \$125,000 elementary school building in Northwest Hamlin, classes will be held for some weeks in other locations. Assignment of the location of each of the grades will appear in The Herald next week. "All grades will be cared for, however," Huchingson explains, "without some of the pupils being transported to one of the rural elementary schools."

"The elementary school will be operating under difficult conditions until such time as a portion of the new building is sufficiently complete to handle some of the grades. The building program is making progress, according to schedule, and in spite of the difficulty in receiving materials on schedule."

Schedule of registration and other particulars about the opening of the 1946-47 school term are submitted by Huchingson below:

Registration for high school students will begin on Thursday, September 12 in the following order: Seniors, students with 10½ or more units of credit, will register between the hours of 9:00 to 12:00 on Thursday. Juniors, students with seven to 10½ units of credit, will report for registration from 1:00 to 3:00 Thursday afternoon. Sophomores, those who have from

ROGER Q. GARRETT NEW RIGHT-OF-WAY AGENT FOR COUNTY

Roger Q. Garrett Jr., county judge-nominee, has been named and appointed Jones County right-of-way agent. This action came as a result of the action of the Commissioners Court last Friday, when on account of the urgency of the farm-to-market road program, it was necessary that the Commissioners Court take immediate steps to name an agent to deal with the federal and state agencies in securing the necessary additional lands for right-of-ways.

Speaking in behalf of the court, County Judge Gilbert Smith said: "We are very fortunate in being able to secure the services of Garrett until the first of the year. Garrett is vitally interested in local roads and this work will fit in fine with his duties after January 1, 1947."

The job of the right-of-way agent, although new in Jones County, is becoming generally used over the state as the most economical and satisfactory method of dealing with the legal technicalities involved in securing the additional lands along the routes of the secondary roads and in dealing with state and federal agencies.

Assembly of God Unit In All-Day Meet Here

Hamlin Assembly of God Church Tuesday was host to the Wichita Falls Presbyter of the West Texas region of the denomination, according to Rev. Paul Joyner, pastor of the Hamlin congregation.

Good attendance of messengers to the all-day gathering was reported from the 40 churches of the district. Rev. R. W. Worth of Wichita Falls is chairman of the Presbyter, and was in charge of the business sessions at the Tuesday meeting.

OF INTEREST TO WOMEN

Joan Culbertson Feted At Friday Gift Tea

Joan Culbertson, bride-elect of Edgar Boaz of Anson, was honored Friday afternoon at a gift tea in the home of Mrs. Fred Carpenter, with Mmes. Tommy Elkins, L. H. McBride, Bill Roundtree, Clinton Barrow, Willard Maberry and Buren Carlton as co-hostesses.

White gladioli and white asters were used on the tea table and buffet with white tapers in crystal holders on the table and in hurricane lamps on the buffet. Pink and white, the bride's color, were featured in foods.

Guests were greeted by Mrs. Carpenter. Mrs. Roundtree, Mrs. Culbertson, Dora Joyce Culbertson and Mrs. Ellis were in the receiving line.

Mrs. Buren Carlton invited the guests into the dining room, where Mrs. Willard Maberry, Mrs. Clinton Barrow, Diane Carlton and Anna Margaret McBride presided. Gifts were shown by Mrs. C. F. Butcher and Mrs. J. E. Simmons.

Vera Culbertson presided at the bride's book, and Mrs. Heflin Miller bade the good-byes.

Betrothal of Edwina Gilbert Told at Party

Mrs. W. H. Gilbert entertained in her home Thursday afternoon from 5:00 to 7:00 o'clock, announcing the approaching marriage of her daughter, Edwina, to Charles Holder of Little Rock, Arkansas.

Mrs. Gordon Bennett greeted guests at the door and directed them to her daughter, Patricia Lee, who revealed the engagement by presenting a tiny gold wedding band, tied with white satin ribbon, bearing the names embossed in gold lettering.

Receiving with the hostess and honoree were Nancy Craig Lasley and Lillian Morrison of Abilene, Elva Ruth Wylie, Eugenia Baskin and Mattie Dell Webb of Dallas and Hortense Watkins of Marlin.

Mrs. Herald Morgan and Mrs. Heflin Miller directed guests into the dining room, where Mrs. C. E. Baskin of Ballinger, Mrs. A. A. Hackley, Mrs. L. H. McBride and Mrs. Ray Wilingham alternated in presiding at the two crystal punch bowls. Assisting in the dining room were Joan Culbertson, Jo Anne McCollum, Inez Baggett and Billie Kathryn Lancaster.

Diane Carlton and Anna Margaret McBride gave piano selections during the entertaining hours.

Presiding at the bride's book was Mrs. J. W. Ezell, aunt of the bride-to-be. Others assisting in the house party were Mmes. W. C. Russell, Tate May, John D. Ferguson, Fred Carpenter, Onis Crawford, Frank Wylie of Dallas and Elizabeth Butcher. Good-byes were said by Mrs. Mart Farrow.

The reception rooms were appointed in arrangements of white gladioli, asters and plumrose fern. About 140 guests called.

Lovely Swiss embroidered hand-made handkerchiefs at The Book Shop.

Patsy Reed Marries Kenneth W. Decker

Patsy Reed, daughter of Mr. and Mrs. H. N. Reed of McCaulley community, became the bride of Kenneth Wayne Decker, son of Mr. and Mrs. Marvin Decker, also of McCaulley, last Monday. The ceremony was performed in the home of the bride's parents before the immediate families of the principals.

Both Mr. and Mrs. Decker are graduates of McCaulley High School. They will make their home on a farm east of McCaulley.

Mrs. Teddy Russell Honored in Ezell Home

Mrs. W. C. Russell honored Mrs. Teddy E. Russell with a tea Tuesday at the home of Mrs. J. W. Ezell.

Guests were greeted at the door by Mrs. Ezell. The receiving line presented Mmes. W. C. Russell, Teddy E. Russell, Elta T. Murphey of San Angelo, Nelson Boothe of Sweetwater, Ray Boothe of Sweetwater, Ross Buckner of Cotton Center and Tate May, who directed guests into the dining room.

Other out-of-town guests were Mmes. Neal Gross of Sweetwater, Pat Elder of Sweetwater, Bob Campbell of San Angelo.

The dining table was elaborately decorated with a pink taffeta slip, draped with pink net caught in bouffant fashion with bridal bouquets of white carnations. The veil worn by the bride was artistically spread across the table to form the illusion of a miniature bride and her train.

The guests were served individual white cakes, mints and pink punch. Floral arrangements of white gladioli were prevalent throughout the room.

Mrs. Jack Russell ladeled punch. Cakes were served by Mrs. DeFrance Bruton. Mrs. Fred B. Moore Jr. presented miniature wedding veils as favors.

Assisting in the dining room were Mmes. Charles Prater, Clifford R. Reynolds Jr., William Shira, Clyde Angel and Frank Johnson.

Music was attended by Mrs. Henry Albritton.

Guests were directed to the back room by Mmes. Lester Morton, J. C. Turner Jr. and Herman Treadwell, where they were greeted by Mrs. E. J. Whaley Jr. Edwina Gilbert presided at the guest register, where 119 guests registered. A miniature bride dressed in a replica of the bride's wedding gown was displayed.

Good-byes were said by Marguerite Nobles.

Irene Clonell Harris Weds Thomas Johnson

Irene Clonelle Harris, youngest daughter of R. L. Harris of Hamlin, was married to Thomas C. Johnson Saturday, August 24, at Anson. The ceremony was read at the parsonage by the Baptist minister of Anson, Dr. Henry M. Chambers.

The bride was born and reared at Hamlin. She graduated from Hamlin High School, and is well remembered here. She recently has resigned from a position with Southwestern Bell Telephone Company at Dallas, where she has resided for several years.

Johnson, son of Mrs. Cooper Johnson of Anson, has resided for a number of years in Dallas. The newlyweds will make their home at Dallas.

Homemaking Girls Climax Work at Picnic

Girls who were members of the summer homemaking classes at Hamlin High School concluded their summer's work last week with a picnic and breakfast at the F. & M. National Bank cabin in Moore Lake Tuesday night.

Gathering late in the afternoon, the girls enjoyed romping about the cabin then spread the lunch in picnic style spent in efforts to get some sleep at for the Tuesday meal. The night was the cabin. A breakfast was prepared and served Wednesday morning by the group. Mrs. Elmer Brewer and Mrs. Camille Simmons chaperoned the girls in the outing.

Marian Wells and Raymond Moyer Wed

Marian Wells, daughter of Mr. and Mrs. G. E. Wells of Hamlin, became the bride of Raymond L. Moyer of Montesano, Washington, Tuesday at 7:00 o'clock p. m. at the Assembly of God Church in Hamlin. Rev. Worth Williams, evangelist, performed the ceremony before a group of relatives and friends.

A graduate of Hamlin High School in 1945, the bride has been employed for several months with the Par-tain Insurance Agency.

Moyer, also employed in Abilene, is a graduate of Montesano, Washington, High School. A veteran of the armed forces, he served for a number of months in the Army Air Corps, holding the rank of lieutenant when he was discharged.

The couple will be at home in a new residence at 326 oss Street in Abilene after October 1.

Bride-Elect Honored At Breakfast Shower

Joan Culbertson, bride-elect of Edward Boaz, was honored at a breakfast shower held at the C. F. Butcher country home Wednesday morning at 9:00 o'clock.

The breakfast was held on the patio. Flower decorations were zinnias and altheas in autumn colors. Favors were hand-painted brides.

After the breakfast the gifts were opened by the bride-elect. Hostesses for the occasion were Mmes. Mart Farrow, Landon Davis Sr., C. F. Butcher, Phala Davis and Heflin Miller.

Guest lists included Mmes. Landon Davis Jr., DeFrance Bruton, J. C. Turner Jr., Fred B. Moore, Charles Prater, Holly Toler, James Simmons, L. C. Boyd, Tommy Ellis, Mrs. Bill Shira, J. R. Culbertson, Teddy E. Russell, Earl Misner and Misses Edwina Gilbert, Marguerite Noodles, Margaret McBride, Elizabeth Butcher, Diane Carlton, Joyce Culbertson and Betty Ferguson.

Paula Ann Andress Birthday Party Honoree

Paula Ann Andress was honored on her fifth birthday with a party Saturday afternoon at the home of her parents.

After games were played, gifts were opened by the honoree. Then the birthday cake was cut and served with ice cream.

Present and sending gifts were Billy Wayne Hallmark, Judy Kay Sprauls, Charles Lynn Brewer, Jimmy Doyle Blackwell, William Boyd, Yovene Conner, Ronda Griffin, Lucy Sue Austin, Tommie Nell Griffin, Gale Griffin, Barbara Johnson, Billy Johnson and Jerald Johnson.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.

2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

SECOND SHORTEST CROP IN 57 YEARS SEEN FOR COTTON

Texas' second shortest cotton crop in 57 years was Friday forecast by the United States Department of Agriculture.

West Texas generally, and in the South Plains area, of which Hamlin is a part, particularly, were reflected as being in a drouth-ridden section that this week promised to produce the smallest yield in many years—unless rains come soon and other favorable conditions make the crop take on new life and do a superb job of production in the time between now and the end of harvest.

The Texas crop is estimated at 1,900,000 bales of 500 pounds gross, a crop slightly larger than that produced by the state last year. Average production in Texas during a 10-year period of 1935-44 was 3,137,000 bales.

The 6,198,000 acres estimated for harvest this year compares with 6,900,000 acres harvested in 1945 and is only 35 per cent as large as the record acreage harvested in 1936. Indicated lint yield per acre, at 147 pounds, is just one pound above the 146 pounds harvested from the relatively poor 1945 crop, and is 19 pounds below the average yield of 166 pounds.

Except for the southern part of the state, the cotton crop this year was seeded mostly under unfavorable conditions. Continued spring drouth in the northwest prevented full planting of intended acreage and resulted in considerable late planting.

Excessive spring rains over most of the eastern half of the state also interfered seriously with planting operations.

The earlier planted irrigated cotton in the High Plains has made fair to good progress, but non-irrigated

DRESS TRICK IS DONE WITH COTTON BAGS

Cute "little sister" Vicky Lynn Hulet pauses for a refreshing drink in Memphis' Overton Park while "big sister" Hilma Heay smilingly looks on. The "big

sister-little sister" frocks they're wearing are made from gay floral printed cotton feed bags. Yes, it's all done with bags, folks—such as chicken feed containers.

Dale Ray Smith Enlists For Service in Army

Dale Ray Smith, son of Mr. and Mrs. Robert E. Smith of Route 4, Hamlin, last week volunteered for service in the regular Army for a period of three years, according to a release from the U. S. Army public relations division.

Young Smith asked for overseas duty in the Caribbean Defense Command. He will serve in the infantry.

acres were mostly late and were suffering from lack of moisture on August 1.

The crop in the low rolling plains was fruiting well, but rains were needed to stimulate plant growth and to prevent shedding of squares and young bolls.

VETERANS URGED TO REINSTATE LIFE INSURANCE POLICY

Hamlin section World War II veterans who have let their national service life insurance lapse were urged this week by Zerk Robertson, Veterans Administration representative, to reinstate their policies. Veterans may do so by going to the Abilene VA contact office, located at 618 Alexander Building, Abilene.

Privilege of owning National Service Life Insurance is one of the most valuable benefits extended to men and women who served in World War II, Robertson emphasized.

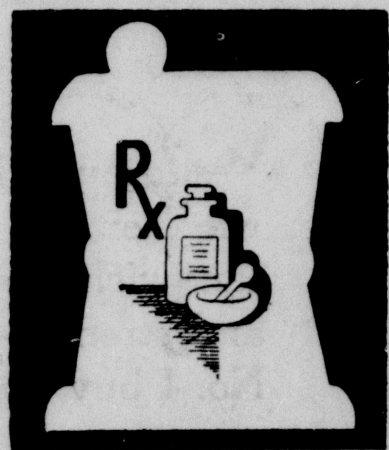

Recent changes in regulations and procedures permit any veteran to reinstate his lapsed insurance without a medical examination—regardless of how long he has been out of the service or how long it has been lapsed—provided his health has grown no worse during the period of lapse. This liberalization will be effective until January 1, 1947.

The liberalization is a boon to many veterans, including those with disabilities, who might never be able to qualify for other insurance, Robertson pointed out.

Veterans who may wish to make an appointment at Anson with Mr. Robertson may do so, as he will be in Anson every second week beginning August 24. His office will be in the Anson post office.

Circumstantial Evidence.

Easter morning the bantam rooster found a basket of Easter eggs on the back porch. He strutted over to his hens, looked them over, then rushed off to the barn yard to lick the stuffing out of the peacock.

FARM MACHINERY SUPPLY IS MONTHS BEHIND DEMANDS

Unprecedented demand for farm machinery is reported by Hamlin dealers in a survey made by The Herald, and the distributors are trying to equitably parcel out the limited supplies of tractors, plows, planters and cultivators. It will require a long time to catch up with the current demand, explain the dealers.

Texas' cotton producers are expected to more than triple the current \$44,499,000 value of their farm machinery in the next 10 years and thus play a major role in the South's vigorous farm mechanization drive, one of the nation's leading manufacturers reported this week.

Analyst for a machinery industry which has been studying the expanding use of machinery in the cotton industry, said the demand for labor-saving machinery on all of the South's 1,500,000 cotton farms had reached the highest point in history. "Primarily responsible is the realization that cotton must be produced more economically to compete in domestic and world markets," he said, "but the demand has been strengthened considerably by shortages of both farm labor and machinery materials."

The average value of machinery on Texas' 273,000 cotton farms is approximately \$163 per farm, the official said, adding that by 1956 it is expected to jump \$614 per farm—the current average for the nation.

Steady technological advances in growing and manufacturing cotton products already are offsetting pessimistic views of the industry.

"Cotton still is the nation's No. 1 money crop," he emphasized, "and lower priced mechanical pickers, flame weeders and better ginning techniques are becoming increasingly available. Meanwhile, textile mills are keeping pace by improving spinning frames, installing anti-friction spindles and tape tension pulleys and developing yarns and fabrics of consistently higher quality."

Added stimulus is supplied by intensive research into unusual new uses for the staple which already are finding wide acceptance, he said.

Let's Save Those Children!

Accidents kill more children than any disease, says the Texas Safety Association. Last year in Texas 883 children of school age were killed in traffic accidents. In the typical American family of three children the probability is that one will be killed before he has lived out his normal life span. Slow down—and save that third child!

The PIPER SPEEDIGGER

A NEW Precision Built Machine that SIMPLIFIES POST HOLE DIGGING. HIGHEST QUALITY MATERIALS. The NEW MODEL "SPEEDIGGER" is built of finest materials and will last a lifetime for farm fence construction. Timken roller bearings are used throughout. Gears are drop forged, case hardened and will stand many times the strain placed on them. Gear transmission case is sealed and runs in oil bath—means perfect lubrication.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

WOULD YOU GO BACK TO GOOD OLD DAYS?

Many still talk about "those good old days" but few would go back to them if they could. Farming was a simple vocation then; it is a highly complex business now. Even so, it seems to us, farm folks have gained both relatively and absolutely.

A decent living is easier for common folks now than it was then, and even with all its complexities, farm life today offers more security, more opportunities and more satisfactions than it did 45 years ago. We've learned how to build back our mined-out soils, and we're about to learn that we've got to work together. Science offers us better plants and animals, better equipment, better markets.

The effects of science when used for destruction are slowly bringing us all to realize that "man does not live by bread alone;" that social progress must catch up with and keep step with material progress.

SHORT SUMMER, WASN'T IT, KIDS?

After twelve or thirteen weeks without school classes, youngsters of the Hamlin area, and elsewhere, are beginning to arrange to get back into the strides of seeking after knowledge again. Hamlin schools will open September 16, and other institutions of the county will open before and after that date.

Already we have heard kiddoes complain that the holiday seemed like only a recess. They have been so consumed in the activities of the summer that school seems like a bugaboo to them.

But that is not the real feeling of even the youngsters—when they stop and analyze what schooling means to their present and their future. Boys and girls of today, like their forefathers and foremothers, want the things that education gives them. They want to be able to read, to write, to spell, to know history, and to know the other things that school gives them. They know that the person without an education has little chance of even mediocre success in the world.

Yes, kids, it was a short summer—but we know you will get in line and avail yourselves of the privileges of education.

NO RETURN ENGAGEMENTS IN RUSSIA

The difficulty of getting along with Russia and of understanding the Russian people is illustrated by a recent remark of President Truman.

The chief executive explained that Russian newspaper men and Russian professors have visited the United States, where they have been entertained royally, but that similar individuals in the United States have never been able to get an invitation for a "return engagement" in Russia.

As the president points out, "We can't very well invade the country unless they want us to." Newspaper publishers and professors in this country have been unable to secure any travel rights in Russia and the president makes it plain that the members of our embassy staff in Russia "are not allowed to go anywhere without being accompanied."

Obviously, understanding and good feelings do not result from a one-way street. Regardless of our attempts to be friendly with the Russian visitors, it is apparent that the Soviet Union prefers "an iron curtain" and does not desire to extend hospitality to foreigners. This attitude is reflected not only in the matter of visitors but in practically every international position that the Soviet assumes.

OVERLOOKING IMPORTANT MARKET

It is well known that manufacturers of products sold on a national scale have directed the major part of their selling efforts toward large city markets.

We have often wondered why these sellers organize their advertising campaigns almost exclusively in large cities. Very often they use every daily newspaper in a large city thus inevitably duplicating their sales effort without taking into consideration the vast market that offers profits in the small towns and cities throughout the nation.

The importance of this market is emphasized by Arch L. Thiele, who says that a survey sponsored by Pathfinder Magazine, revealed that towns of less than 5,000 population, representing only 10 per cent of the country's total, do 23 per cent of the nation's business.

Mr. Thiele points out that 60 per cent of the population of this country lives in cities under 25,000 and on farms. He says that 40 per cent of the \$42,000,000,000 worth of retail sales in 1930 came from towns under this size.

WHAT CONTEMPORARIES ARE SAYING

SAFEGUARD YOUR FAMILY

Although you may never have stopped to think about it, the average man sometimes finds himself faced with a perplexing problem. Ordinarily, he provides security for his family by means of the income he earns. But if, as the result of an accident, he should be deprived of his earning power, either for a time or permanently, this usual safeguard fails him.

And so man has learned to depend upon the second emergency method of protection for his family. He carries accident insurance. Statistics show that millions of dollars are paid out each year on accident insurance. It is a safeguard that every person should use.

If he should be laid up for several weeks or longer because of an injury following some mishap, accident insurance will provide living expenses for his family while he is away from his job. It will pay his medical expenses as well.

No one can be sure when he might become the victim of some accident.—The Post Dispatch.

So, you shake your head when you read the news about brutal murders, racket wars, juvenile delinquents and fiends? But did you know that thousands of Texans appear yearly in traffic courts? And probably most of those thousands are otherwise respectable law-abiding citizens—like you! Motorists, warns the Texas Safety Association, must get it through their heads that breaking traffic laws and safe driving rules is a crime—and our shameful traffic toll each year shows that this kind of crime does not pay either! Don't be one of the law breakers!

Only a prophet with omniscience could tell in advance what will happen.—Raymond Moley.

AREA HOUSEWIVES MAY ENTER BREAD SHOW SET AT ANSON

Housewives of the Hamlin area are advised that a bread show will be held in the home demonstration office in the basement of the courthouse in Anson, September 10. Scoring of products will be open to the public between 1:30 and 4:30 p. m., according to the home demonstration agent, Hannah Nabors.

All persons who bake bread at home are invited to enter one or more products in the show. Although it is sponsored by the County Home Demonstration Council, it is not limited to Home Demonstration Club women. Divisions of entry are as follows: Loaf bread, Swedish tearing, coffee cake, pecan or butter-scotch rolls, cinnamon rolls, butter-milk rolls, and various shapes in both plain dough and basic sweet dough. Shapes of rolls may include Parker House, clover leaf, crescents, bow-knots, rosettes, fan tans or biscuit type. This show will include yeast breads only.

You may enter in each division or in any one or more you choose. In the roll division, bring five of each roll. Tea ring, coffee cake, etc. to be shown as baked.

Products that score 90-100 will be awarded blue ribbons; from 85-89 score, red ribbons; 80-84 score, white ribbons. A person may win more than one ribbon in the show if her products score high enough, but she will receive only one prize in the form of baking equipment, if she wins one or more ribbons. The equipment will be grouped according to first, second and third places, but those winning prizes will be allowed to choose a piece of equipment from the group which her highest score represents. The prizes and ribbons for this show were furnished through the courtesy of Bewley Mills. A display of prizes for the show may be seen in the home demonstration office.

Bread recipes and score cards to be used in the scoring of products may be obtained free by writing or calling by the home demonstration office.

Arkansas Evangelist Preaching in Revival At Assembly of God

Revival meeting that got underway Sunday at the Hamlin Assembly of God Church will continue through Sunday evening, September 15, according to Rev. Paul Joyner, pastor.

Rev. D. F. Ferguson, evangelist from Arkansas, is doing the preaching in the two-week series of services. Recently discharged from the Army after spending 40 months in the service, Rev. Ferguson was in the South Pacific for 23 months, where he won many souls to Christ, according to Rev. Joyner.

The public is invited to attend the services during the revival. Inspirational singing is featuring the service, which begin each evening at 8:00 o'clock.

On Her Pleasure Time.

Mrs. Huntley-Hoopington walked into her kitchen quite unexpectedly and found her cook feeding the local cop.

"Is this what I pay you for?" stormed Mrs. H.-H.

"No, ma'am," replied the cook, "I do this for nothing."

PLEASE, FELLOWS...

Give the birds a break.

When you take a pot shot at a bird on a wire the victim doesn't have much of a chance . . . and neither do telephone wires.

Last year in the Southwestern Company nearly 3,000 cases of wire trouble were caused by careless hunters.

Telephone equipment is hard to get and hard to replace.

So won't you please give the birds . . . and us, a break?

Thanks.

Southwestern Bell Telephone Company

COTTON GAINS \$2 TO \$3 PER BALE DURING WEEK; LIVESTOCK RUSHES TO MARKETS

Editor's Note—Below is the first of a new series of articles that will be carried from week to week in the Herald, in the belief that people of the area are interested in the trends of various commodity markets affecting the Hamlin region. Prepared by the Production and Marketing Administration of the United States Department of Agriculture, the reports give a resume of markets in the Southwest.

Southwest farm products continued to find a broad demand at most markets that kept prices generally steady to strong, according to USDA's Production and Marketing Administration.

Cotton gained \$2 to \$3 a bale last week in moderately active spot markets. Prices stood well above 36 cents a pound. Demand was strong for a wide range of grades and staple lengths.

Most southwest egg markets reported top quality offerings firm under declining receipts and broad demand, with prices gradually working higher. Hens and fryers held steady

under fair demand, but turkeys were dull and weak.

Livestock producers rushed record loads of cattle and hogs to most markets early last week because of expected OPA action on ceilings and drouth in some areas, but receipts dropped off during the latter part of the week when OPA indicated a boost in former ceilings and when rains broke the drouth. In general, cattle prices were steady but had a tendency to drift lower last week. San Antonio and Houston reported steady prices and gains of 25 to 50 cents per 100 pounds on slaughter calves and beef cows over the previous week's close. Trading remained active all week.

Southwest hog markets registered declines of \$1.50 to \$5 per 100 pounds last week compared to the previous week's close. Top butchers were quoted \$16.50 per 100 pounds at San Antonio and Fort Worth; \$16.75 to \$17 at Wichita; \$17 to \$17.50 at Oklahoma City and Denver.

Feed prices showed some evidence of weakness.

Choice of Jobs.

A farmer was trucking a load of livestock to the market and had a blow-out just as he was passing the state insane asylum grounds. As he repaired the tire, two inmates watched him from the other side of the road fence.

"Are you a farmer?" one called to him.

The farmer replied that he was, without looking up from his work.

"Have you ever been crazy?" asked the second inmate.

At that the farmer turned around to face his questioners. "Not that I know of," said he.

"Well," and the second inmate nudged the first, "you better try it, 'cause it's a sight easier than farming."

No Justice in the Supply.

"I see here in the paper, Nan, that a woman in St. Louis has just cremated her fourth husband."

"There ain't no justice. Some women can't get a man, while others have husbands to burn."

Sugar May Be Saved By Wise Home Canner

Rule of four to one—at least four quarts of canned fruit for each pound of sugar used—will be followed again this year by thrifty home canners interested in putting up the most fruit on limited sugar supplies, says Hannah Nabors, county home demonstration agent. Figuring by the jar, the rule provides an average of one-half cup of sugar to each quart jar and makes a moderately thin syrup.

By using some light-colored corn syrup or mild-flavored honey, sugar may be stretched even further. Proportions suggested are: Two cups of fruit juice or water to one cup sugar, or to two-thirds cup sugar and one-third cup corn syrup, or one-half cup sugar and one-half cup honey. Boil the ingredients together five minutes and skim off any scum. Then the syrup is ready to combine with the fruit.

Exam for Postmaster At McCaulley Set Soon

Examination for the purpose of filling the postmaster's place at McCaulley will be held some time after September, according to Mrs. Lottie Rector, postmaster at that place now.

Only patrons of the McCaulley post office will be permitted to take the examination, it is explained by postal authorities.

Some of the letters the newspapers receive are about as hard to read as a doctor's prescription written with a postoffice pen in the rumble seat of a second-hand car.

COUNCILMAN WITT TELLS ROTARY CITY NEEDS NEW PLANT

"If sanitary conditions for the city of Hamlin are to be much improved in the future, we must spend some money to enlarge our sewage disposal plant," City Councilman I. R. Witt told members and guests of the Hamlin Rotary Club Wednesday noon at the Morgan Hotel. He was giving a word picture of the situation at the much overloaded plant now in operation by the city, which was built in 1922 to care for about one-third of the sewer connections now tied onto the system.

"Your City Council is ready to do what the citizenship wants to do, the councilman further declared. "Engineers and the state health department, after a recent survey here, recommended the installation of a new disposal system that would cost several thousand dollars."

Witt explained that he was giving the status report to let Hamlin citizens know what the city faces, so that they may be "in the know" as the City Council tries to improve the sewer facilities.

Guests at the Wednesday luncheon meeting included Glen E. Dugan, M. E. Perkins, Bob Methvin, Truett Walton and S. J. Treadaway of Abilene, Holly Toler and W. H. Eysen Jr. of Hamlin, Bernard Taylor of San Angelo and Walter Erwin of Amarillo.

COACH TELLS LIONS PIED PIPERS LOOK GOOD IN TRY-OUTS

"Hamlin High School's football team for 1946 looks mighty good to me so far," were the words used by Coach L. B. Howard Tuesday at noon at the luncheon meeting of Hamlin Lions Club at the Morgan Hotel. He and Assistant Coach Melvin Carlton gave resumes of the prospects for football the ensuing season.

Howard declared that 26 boys reported for work-out at the first sessions Monday morning—more than appeared all last season. Averaging about 150 pounds around, the boys have the will to win this year, which goes a long way toward downing opponents. "The boys have a rugged schedule, with no breathers between games, but they will be ready to take all comers when the season opens," Howard said.

Carlton told the Lions that the junior high school boys are showing keen interest in football this season. With a junior high district schedule being mapped, games are slated for the team with Rotan, Roby, Merkel and Anson. About 25 boys are coming out, Carlton said, who will enter high school with basic knowledge of football that should be a boon to future squad players. Four games are also on tap for the Class B team.

Dawson McCoy and Harold Wheat were presented for membership in the Lions Club.

Other guest, besides the new members and the coaches, was C. J. Atkins of Houston.

Nazarene Church Zone Meeting Held in Hamlin

Quarterly session of Churches of the Nazarene for the Abilene zone was held Thursday with the Hamlin Church of the Nazarene, according to Pastor J. T. Crawford, who is zone chairman. Representatives of the denomination from the four counties of Taylor, Nolan, Fisher and Jones in the zone were present for the all-day gathering.

Mrs. Eva Gardner of Kansas City was principal speaker at the church conference, speaking at 3:00 and 8:00 o'clock p. m.

Gambling Condemned By Ministerial Alliance

Gambling that is becoming prevalent in the city Hamlin was condemned by the Hamlin Ministerial Alliance when the group of ministers met Tuesday noon in a luncheon session at the Foursquare Gospel Church. Pastor Lucile Liles was hostess to the unit, and Mrs. Monroe Tabb and Betty Decker assisted with serving.

An outspoken drive against the gambling vice is planned for the near future by the Alliance, according to officials of the group.

Every time we go to a restaurant and see a fellow tuck a napkin under his chin, we wonder whether he came in for a meal or a shampoo.

Plunkett Variety Tent Show Plays in Hamlin Auspices Fire Group

Plunkett's variety tent show, with 10 Plunketts out of the family giving the performance its name, will set up in Hamlin one block east of the highway intersection on the Stamford highway for a three-day run starting this coming Thursday, September 12, under auspices of the Hamlin Volunteer Fire Department. A new tent, flame-proof, will house the show.

On the bill are Jerry Plunkett, songstress; Kennedy Swain and Jimmy Van, described as two of the funniest men in the stage show business; Captain Fuzz Plunkett and his three trained seals; as well as a troupe of performing dogs and monkeys. Corky and Gloria Plunkett are featured in a flying adagio dance.

The coupon at the bottom of their ad in this issue will admit one lady free with a paid admission opening night.

Schools at McCaulley To Open September 9

McCaulley Schools will open next Monday, September 9, according to Superintendent W. W. Webb, who says enrollment at the school should be about normal.

Work-outs for the McCaulley High School football team have been underway all week. McCaulley has a full schedule of games with Class C schools of the area, playing six-man football.

Gas on Stomach

Relieved in 5 minutes or
double your money back

When excess stomach acid causes painful, suffocating gas, sour stomach and heartburn, doctors usually prescribe the fastest-acting medicine known for symptomatic relief—medicines like those in Bell's Tablets. No laxative. Bell's brings comfort in a jiffy or double your money back on return of bottle to us, 25c at all drugstores.

SCHOOLS OPEN SEP. 12

(concluded from front page)

three to seven units of credit, will register on Friday morning from 9:00 to 12:00 o'clock.

Freshmen, students who have less than three units of credit, will report for registration at 1:00 on Friday.

Elementary pupils will not report for registration until Monday morning, September 16, at 8:45 o'clock. Pupils of the rural elementary schools will follow the same schedule.

Students who attended a school outside the Hamlin system of schools last year are requested to write their school last attended for a transcript of their credits to be mailed to the principal. This will greatly aid in properly enrolling such students.

Both the high school and elementary schools will operate for a half day schedule on Monday beginning at 8:45 o'clock and with classes being dismissed at 12:00. Tuesday, September 17 will begin a full day of work.

Buses will not begin operation until Monday. High school students who are unable to come in due to lack of transportation during the regular registration days of Thursday and Friday will be given an opportunity to register on Tuesday, September 17, and are requested not to come on Monday.

Bus schedules are being worked out to give the best possible service to patrons of the newly enlarged district. Further information concerning the routes will also appear next week.

Rev. and Mrs. E. L. Yeats and son, A. W., accompanied their daughter and sister, Helen, to Columbia, Missouri, where she will resume her work at Stephens College. On the return trip they visited in the Ozark Mountains.

HERE'S WAY TO BUILD UP. RED BLOOD to get more STRENGTH

if you lack BLOOD-IRON!

You girls and women who suffer so from simple anemia that you are pale, feel tired, weak, "dragged out"—this may be due to lack of iron in the blood.

So start right away—try Lydia E. Pinkham's TABLETS—one of the best and quickest home ways to help build up red blood to get more strength and energy—in such cases. Pinkham's Tablets are one of the greatest blood-iron tonics you can buy. Just try them for 30 days—then see if you, too, don't remarkably benefit. All drugstores.

WHAT THE CHURCH OF CHRIST IS

The public worship of the church of Christ consists of congregational singing of gospel hymns (Ephesians 5:19); preaching of the gospel (Matthew 28:18-20); praying (1 Thessalonians 5:17); the Lord's Supper (Acts 20:7); and giving of our means (1 Corinthians 16:2).

When you visit the church of Christ services, you have no obligation whatever except to respectfully hear the word of God.

You will find worship after the New Testament pattern, simple and sincere. Churches of Christ recognize no creed but Christ, have no discipline or rules but the inspired word of God. Members wear no name but the divinely given name, "Christian". You will find that you have the very greatest welcome to all the services.—J. C. SCOTT, Minister.

ELECTRICAL APPLIANCES—FURNISHINGS

The House That Jack Built

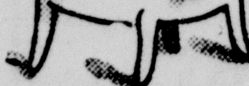

This is the house that Jack built.

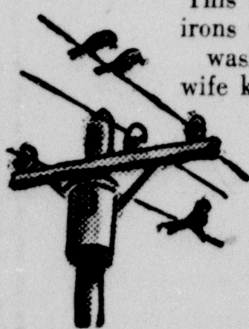

This is the wife that keeps house in the house that Jack built.

This is the washer that does the wash that helps the wife keep house in the house that Jack built.

This is the iron that irons the wash the washer washed, that helps the wife keep house in the house that Jack built.

This is the wire that carries the power that heats the iron, and turns the washer that does the wash, that helps the wife keep house in the house that Jack built.

THIS is the story of better living—of electric living—in Jack's house. The tale could go on endlessly. For electricity is a servant of many talents, of which washing and ironing are but two.

The electric power that helps Jack's wife is always ready, dependable, available in any quantity at any time. And Jack doesn't need much jack to pay the bill.

This is the company that strings the wires and makes the power that gives the Jacks—and countless families like them—all the comforts and convenience of electric living.

BOWEN POPE SAYS THANKS TO COUNCIL FOR MOSQUITO BAN

Dear Mayor Toler and Councilmen Ivy Witt, O. D. Roland, L. H. McBride, Mac Brundage and Gordon R. Bennett:

We want to ask you: What on earth has become of the mosquitoes?

It is very appropriate and timely to express in public print the deep appreciation and thanks to the City Council for the good deed they have performed in ridding this town of the mosquito.

We, for one in Hamlin, rejoice that we have lived to see the day when we may enjoy the out-door breezes in late eventide, without having to fight mosquitoes and suffer their pangs of pain; that now we can park our car down town or in our garage without getting loaded with mosquitoes; that we can go to worship places and other meeting places without feeling the sting of mosquitoes on our ankles; that now one can drop off to sleep without that dread of hearing the depressing hum of the old mosquito; that now we may not see so many children with faces red and sore from the bites of mosquitoes.

Now, you understand why every Hamlin citizen should feel grateful to the group of men, who with the help of the recent long dry hot days of sunshine in getting rid of a pest that afflicts human life around the world. This important event in Hamlin's history is no little thing. Therefore, for the part the city authorities have taken in making Hamlin a better town, we just want you to know it is appreciated.

Long ago we printed so many lines about the mosquito in Hamlin till we were joshed as "the mosquito man" and we resolved to never use that word again until something was done about it. It has been done and exactly as we thought it should years ago. The City Council went to the source of the trouble—the situation from the end of the sewer line on the bank of

WEDS AT STAMFORD

Mrs. Carl Smith, above was Lola Fay Ford before her marriage to Mr. Smith August 3 at Swenson Avenue Baptist Church in Stamford. The bride is the daughter of Mr. and Mrs. Joe Ford of Hamlin and the bridegroom is the son of Mr. and Mrs. Tom Smith of Stamford.

California Creek, for a mile or so down the stream that carries disposal water. There was where the recruiting station was for old man mosquito. There he hibernated in winter and was ready to start in early spring; there was his summer haunt—plenty of water, plenty of food for the young, shade and weeds, drift and protection to keep up the billions of recruits into town, not far away, making an ever ample supply to take the places of the mosquitoes killed around homes and in stores and stations and hauled away by visiting cars to Hamlin. The chief breeding place has been eliminated by means of cleaning the settling basin and bulldozing away the trees, trash and retarding dirt so the stream now carries along the waste water in the open sunshine which is purifying.

The City Council has used many hundreds of gallons of kerosene to spread over any standing waters and low places, thus cutting farther the supply of mosquito recruits. All this is a fact, for on Monday morning of this week, in company with Alderman Brundage, we made an inspection to see what was done to make a comparison of what we knew to be "in the mosquito hatchery" years ago.

What the Council has spent is tax money no person in Hamlin will kick about. Keep spending some more in the same manner and each effort will cost less and the results will be continually felt and appreciated. A little early attention each spring will save gallons of human blood every summer.

Mr. Mayor, 3,500 Hamlin people join me in saying, "Thank you and your aldermen."—Bowen Pope.

EGGS MAY BE USED IN MANY WAYS TO SAVE VITAL FLOUR

Hamlin area women are reminded by Hannah Nabors, county home demonstration agent, that eggs, now in seasonal abundance, may be used in various ways in cooking to spare flour. Wherever egg is used it adds color and richness as well as mineral and protein to the dish.

Instead of macaroni, spaghetti or rice often served in thin soups, take a tip from Chinese cooks and use egg strands. Just before the soup is ready to serve and while it is still simmering, pour in beaten egg gradually. The egg cooks in attractive yellow strands immediately on coming in contact with the hot soup. Serve at once.

Egg may be used to thicken some gravies and sauces in which flour is ordinarily used, but two precautions must be taken to prevent the egg from curdling rather than thickening, provided meat cooks at medium rather than high temperature.

ing. The first is to cook at low heat preferably over simmering but not boiling water. The second is to pour a little of the hot mixture into the beaten egg first, and then add this mixture to the rest of the hot liquid. Never hold the gravy over direct heat after egg is added.

An unsweetened soft custard—milk thickened with egg and seasoned with salt, and possibly with grated onion, cheese or herbs—makes an appetizing sauce for fresh vegetables in place of white sauce. Even in white sauce, egg may be used to spare part of the flour. Still another place where egg may be used to thicken sauce is in boiled salad dressing.

Although a thick white sauce is generally preferred for binding together ingredients of meat loaf, meat patties and similar mixtures, eggs may be used successfully for this pur-

Abilene Recruiting Unit Only One to Reach Goal

Captain Wayne Hall, recruiting officer in charge of the Abilene main station, has announced the Abilene area, composed of Taylor, Jones, Haskell, Nolan, Fisher and Stonewall Counties, has surpassed the quota assigned it by headquarters in Dallas by enlisting 80 men in the new regular Army for the month of August.

Accomplishments of individual recruiters are: First place was Sergeant A. C. Boone of the Abilene office with 25 recruits; second place, Sergeant Ted C. Roberts, also of Abilene office, who recruited 22 men for the month; and third place went to Staff Sergeant Orie L. Madera of the Sweetwater office with a total of 12 recruits. Captain Hall also revealed the Abilene main station was the only station in the Dallas district to meet the quota set by headquarters.

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—its itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as they should, there is a retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbances. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

56 MILES OF NEW REA LINES GOING UP IN NEINDA REGION

Fifty-six miles of new Rural Electrification Administration lines are being strung in the Neinda community, according to officials of the Midwest Electric Cooperative, with headquarters at Roby. The job will be completed within a few days, when electric energy will be applied that will serve more than two scores of new patrons in that area.

The Neinda wiring job is part of 149 miles of new electric lines that are being strung by Midwest in its seven-county area. Total of 357 additional miles of lines have been approved for construction, which will get underway as soon as materials are available, states M. L. Andress of Snyder, director of the Midwest unit, who was making a tour of inspection of the work this week.

Other line projects are being erected between Hamlin and Rotan and in the McCaulley area, Andress states.

With 675 miles of lines already electrified, Midwest is now serving more than 1,700 patrons with electric service. The new units scheduled for construction and now underway, already approved, will give Midwest total of more than 1,000 mileage, with more than 2,500 patrons, REA officials assert.

Midwest REA projects are working out financially, too, officials declare. Based on a financing plan of 35 years' time, repayments of government loans are being made by the seven-county unit several years ahead of maturity dates.

Nowadays when a fellow says that a bundle of joy has just arrived at his house, you don't know whether he is talking about a new-born baby or last month's laundry.

Duffle Bags Donated to Pied Pipers by Jaycees

Twenty members of the Hamlin High School Pied Piper football team will receive duffle bags next week from the Hamlin Junior Chamber of Commerce, it was announced this week by Jaycee officials.

The bags, 16 inches in diameter and 29 inches long, will carry suits and other personal equipment of the boys on their road trips, Coach L. B. Eard announces. They are being made of heavy duck.

Appropriate lettering, carrying individual players' numbers, will be stenciled on the bags when they are completed this week.

A double minded man is unstable in all his ways.—James 1:8.

Other Area Towns Go Ahead on Paving Jobs

Hamlin citizens who are interested in getting a paving project underway in the city remind The Herald publisher that other cities and towns are going on with such programs despite abnormal conditions that exist. They contend that the fact Hamlin folks have more money now which would gladly be spent for this modernization more than offsets high costs at this time.

Abilene has a paving and resurfacing program underway that includes nearly 200 blocks of streets.

Morton, a town on the South Plains little larger than Hamlin, awarded contract last week for more than 20 blocks of paving, which Morton citizens declare will do more to make a city out of a town than any other civic improvement.

Time Help Was Needed.

"Conductor, will you help me off the train?"

"Sure. But why?"

"You see, I'm stout, and have to get off the train backwards. The porter thinks I'm trying to get on and he gives me a shove on again. I'm five stations past my destination now!"

Hamlin to Be Served by Stamford USES Office

Hamlin is included in the area served by the Stamford office of the United States Employment Service, Clay Beaver, manager, advises. Local employers and applicants, including veterans, may contact the Stamford USES office, 125 North Swenson, where trained personnel will assist them in their employment problems.

The Stamford USES office is open full time, 8:00 to 5:00 o'clock, Mondays through Fridays. Special services, including counseling, information on various VA programs, training, etc., are available to veterans. Applicants may register with the Stamford USES office for jobs anywhere in the area or in other localities.

Danger Lurks in Expectation.

"Say, Bud, what makes you so jumpy. I've noticed that every time you hear an auto horn you cringe and look up terrified. Are you afraid of being hit?"

"Heck, no! It's just that last week a man ran off with my wife in an automobile and every time I hear a horn toot, I'm afraid he's bringing her back."

JESS ALLEN CLARK, FORMER RESIDENT, DIES IN HOTEL BED

Funeral services for Jess A. Clark, plaster contractor of Dallas, who was found dead in his room at the Plaza Hotel at Abilene Monday, were held at the Barrow Funeral Home in Hamlin Tuesday afternoon at 3:00 o'clock. Rev. J. W. Carey of Abilene officiated. Burial was in the Hamlin East Cemetery.

Clark had been rooming at the hotel for the past two weeks while visiting with a brother, C. L. Clark. The two were together Sunday night, and his brother apparently was feeling well at that time, C. D. Clark said Monday.

Mrs. Beulah Watts, hotel manager, said that a night employee of the hotel, Joe Herndon, noticed about 6:00 a. m. Monday that Mr. Clark was later than usual in arising. After peering into the room and noticing that Mr. Clark was lying very still, he notified Mrs. Watts, and the two went inside where they found that he apparently was dead. Dr. A. C. McFadden, city health doctor, later pronounced him dead.

Mr. Clark was born at Canton, North Carolina. He moved to Hamlin in 1903 and was graduated from high school here. After serving in the Navy during World War I he went to Dallas and had lived there since.

Survivors include one son, Robert Clark of Dallas; two brothers, C. D. Clark of Abilene and Willie Clark of Lueders; and one sister, Mrs. A. A. Stewart of Hamlin.

Phone 241 and tell us your news.

SOIL CONSERVATION PRACTICES ATTRACT INTEREST IN CALIFORNIA CREEK REGION

Growing interest in the California Creek Soil Conservation District by Hamlin area farmers and ranchers is being manifested, according to officials of the area office, located at Stamford. California Creek, which rises in Fisher County, southwest of Hamlin, is principal source for the new Hamlin Lake south of town. It flows through Hamlin, merging with another branch east of town, and runs in an easterly direction through the county, leaving Jones County in the extreme northeast portion, heads into Haskell County, then across a corner of Shackelford County and into the Clear Fork of the Brazos River.

Supervisors of the district met in monthly session last Wednesday, when the following board members attended: J. F. McCulloch, John R. Watson and C. E. Lantrip.

J. F. McCulloch, chairman of the board, reports that nine farmer co-

operative agreements, totaling 1,802 acres, and two rancher cooperative agreements, totaling 41,756 acres, were approved for work. The board also approved 14 new applications for assistance totaling 2,502 acres, and West Swenson priority group located northeast of Avoca.

Farmers for whom agreements with the district were approved by the board were A. H. Lundgren, J. H. Scott, W. H. Overton, C. M. Jordan, Mrs. Hulda Strand, H. C. Purcell, W. A. Fischer and Carl Back. The ranches approved were the Swenson Flat Top ranch covering 35,451 acres, and the Brooks Early ranch consisting of 6,305 acres.

McCulloch said, "The Swenson Land & Cattle Company, operators of the Flat Top ranch, are in the process of grubbing the mesquite trees on the ranch and are interested in applying other soil and water conservation practices to maintain and improve the condition of their grass land. Brooks Early, a new rancher in this locality, recently moved here from Brownwood, where he has been carrying on ranching operations in Brown and Erath Counties, and was a cooperator with the soil conservation district in that area.

Farmers for whom applications for assistance were approved were Mrs. J. E. Edwards, Lois Young, C. R. Moss, H. E. Valliant, Mrs. D. M. Guinn, Herbert Kelso, W. W. Newton, C. E. Stegemoeller, E. O. Nauert, E. W. Rosenquist, Mrs. Neil Reed, Louis Rosenwasser, W. R. Cockrell and Oliver and John M. Swenson. The last six applicants are located in the new priority group approved by the board.

Always hang up shovels, forks, hoes and rakes when you are through with them. Leaving them lying around on the ground or on the floor is dangerous.

HOT DRY WEATHER HELPS TO CONTROL PEST INFESTATION

Continuation of hot, dry weather over most of the state has caused cotton to mature and insect infestations to be reduced, according to the weekly report on insect situation in Texas to The Herald from Texas A. & M. College as of August 13.

Since the first of July, daily maximum temperatures at 69 U. S. Weather Bureau stations in Texas have averaged 97.8 degrees. First bales have been reported in nearly all northern counties and in many western counties. There are scattered fields, however, throughout the state where late fruiting, rank growing cotton continues to attract leaf worms and boll worms and in some areas boll weevils continue to take a toll of the late squares and young bolls. Threatening or damaging infestations of these insects should be controlled until the cotton reaches full maturity.

Early destruction of cotton stalks by plowing the stalks under is a good soil improvement practice as well as an aid in controlling certain insects. This practice will do much to reduce weevils in all areas where there is sufficient time between the date of destroying the stalks and the date weevils enter hibernation so that a satisfactory "starvation" period is created.

All cotton growers in Texas are urged to harvest their cotton and destroy the stalks at the earliest possible date. This will help control the pink boll worm and also the boll weevil for next year.

Office supplies at The HERALD.

Stamford Talking New Paving Projects in City

Several new paving projects are being arranged at Stamford, according to a story in the Stamford Leader. Property owners are being signed for the paving program, and a Fort Worth contractor is being contacted to do the job. The contractor is doing some paving in the Stamford region.

Property owners pay two-thirds of the paving costs and the city one-third, according to the Leader.

James Milliorn Enlists For 18 Months in Army

James M. Milliorn of Hamlin has volunteered in the regular Army for a period of 18 months, according to a release from the Army personnel division to The Herald.

Prior to his enlistment he was a farmer for two years. His wife is of Hamlin.

There is nothing more to be esteemed than a manly firmness and decision of character.—Hazlitt.

NEWS NOTES FROM SYLVESTER

MRS. J. M. MONTGOMERY, Correspondent

Mr. and Mrs. E. C. Smith and Ann. Dorothy returned Saturday from Monahans, where Mr. Smith was a patient in the hospital the past two weeks. He underwent surgery again on his arm, which was injured several weeks ago in a fall. Accompanying them home was their son-in-law Woodford Pursley, who is spending the week-end with his mother, Mrs. A. W. Pursley.

Mrs. W. C. Mitchell, Mrs. Byron Maberry and two children and Mrs. Maberry's mother, Mrs. Maggie Dunn, visited relatives at Snyder, Slaton, Lubbock and Portales, New Mexico, the past week.

Mr. and Mrs. William Nasworth and children were in Roby Saturday.

Mr. and Mrs. W. O. Swindall and Scott were in Roscoe and Loraine Saturday.

Mr. and Mrs. Grover Combest are announcing the birth of a daughter at El Paso Thursday, August 29. The little lady has been named Mary

Mr. and Mrs. Ancil Hendricks of Roscoe were Sunday visitors in the E. L. Brewer home.

Inez Henson will teach in the Sweetwater schools this year. She and her mother are moving to Sweetwater this week.

Mrs. Tracy King and daughters were in Roby and Sweetwater shopping Monday afternoon.

Jo Ann Montgomery of Abilene spent the week-end with her parents, the Milton Montgomerys. Other visitors in the Montgomery home Sunday were Mr. and Mrs. Burtis Sharp and children and Mr. and Mrs. Aubrey Hollis of Sweetwater.

School opened Monday with a full crew of teachers.

Sunday visitors in the Pursley home were Mr. and Mrs. Wayne Pursley and daughters of Roby, Mr. and Mrs. Fred Fountain and Woody Pursley of Monahans.

Paul Turner was at Noodle on business Monday.

Mrs. Wesley Waldrop returned Sunday evening from Illinois, where she visited her husband, who is employed there.

Mr. and Mrs. W. C. Mitchell will occupy the house vacated by Mrs. Henson in Northwest Sylvester. Mr. Mitchell is employed on the Santa Fe railroad.

Twenty-dollar bills carry President Jackson's photograph. Grant's picture appears on all \$50 bills.

THE PLACE TO DO YOUR BANKING BUSINESS

FARM RECORD BOOK WILL AID FARMERS WITH INCOME TAX

With the halfway mark in the year's business recently gone by, Tyrus Timm, economist in farm management for the A. & M. College Extension Service, reminds Hamlin area farmers that the income tax will again be due on January 15, 1947, and that complete farm records should be kept. Like the last pay period, a farmer may elect to make a final return on March 15, 1947, but this date is for final correction. The main bill still is due on January 15.

More than 95 per cent of Texas farm families file as a cash basis, says Mr. Timm. In this connection, various sections of the Texas Farm Record Book prepared by Texas A. & M. College will give the facts necessary for income tax returns.

Total amount of money received for crops and livestock raised on the farm should be recorded on pages 10-23 of the Texas Farm Record Book. Cash received from such services as work on other farms, hire of tractor, AAA payments and the like should be itemized on the same pages in the miscellaneous sales column.

List sales of livestock and other items previously bought on pages 10-23 and purchase price on pages 24-25 under expenses. All cash farm operating expenses (not household) and the purchase price of animals that died during the year also should be put on these pages.

Depreciation on farm buildings and equipment goes on pages 1-7.

If you don't have one, full particulars about the Texas Farm Record Book may be obtained from H. C. Stanley Jr., Jones County agent.

A Really Inspiring Sight.

A tourist came upon a small boy sitting on a rail fence by the side of the road and watching a great red glow in the western sky.

“My boy,” he said enthusiastically, “I am glad to see that you appreciate the beauties of nature.”

“Yes, sir,” asserted the lad.

“There is nothing that equals a beautiful sunset,” pursued the tourist. “Do you come here often to watch it?”

“That ain't no settin' sun!” replied the boy, turning a beaming countenance toward the other. “That is our school house burning down.”

Again we talk of simplifying the income tax report. Next thing you know all we'll have to do will be to write down our income, deduct our expenses, and send in the balance.

COTTON LOVELY

Summer sports are in the offing for Dusty Anderson, Columbia star, as she steps out in a one-piece play suit of cornflower blue cotton. Fashion features of the play suit, the National Cotton Council says, are the softly padded cap sleeves and the button line which runs from neckline to pantie-shirts.

POT-SHOTS FROM McCAULEY

BY GEO DARDEN

Notices have been posted in McCauley calling attention to a school bond election to be held next Saturday at the tabernacle for the purpose of voting \$20,000 in bonds for the erection of school buildings, gymnasium, etc. About a year ago a bond issue was voted on for the erection of a gymnasium, and after bonds were voted we found we did not have enough for the erection of buildings and necessary repairs to other buildings. Every property taxpayer should turn out and help vote these bonds next Saturday. We need a water system for our school; we need repairs on buildings; we need a gymnasium. All can be had without working a hardship on the taxpayers. The children of the McCauley Independent School District deserve all we can give them. There will be two propositions on the ticket to vote for or against. Vote for both propositions and McCauley School will not remain in the background—and before the present school term shall have ended we can all look with pride at a fine building, a water system and a happy bunch of youngsters.

Thanks to LeRoy Prather for a year's subscription to The Herald.

Mr. and Mrs. Buford Dean and daughter of Dallas have been visitors in the home of their parents, Mr. and Mrs. John Dean.

Patsy Reed, daughter of Mr. and Mrs. H. N. Reed, became the bride of Kenneth Wayne Decker, son of Mr. and Mrs. Martin Decker, in a home wedding in the home of the bride's parents Monday of last week. Both Mr. and Mrs. Decker are graduates of McCauley High School. The couple will make their home in this community on a farm east of McCauley.

Mrs. George Darden and children visited last week in the home of Mr. and Mrs. M. A. Darden at Girard.

Mrs. Maurine Wall and daughters visited for a week in the home of Mr. and Mrs. S. E. Miers and Mr. and

Mrs. Joe Miers. Their home is at Pecos.

Lieutenant and Mrs. W. H. Pickron of Shreveport, Louisiana, were visitors last week-end in the homes of their parents at Hamlin and McCauley.

We had fine rains during the past week, but not enough to fill the surface tanks in this immediate community. A dashing hard rain would get the job done.

Examination for the postmaster's job at McCauley will be held some time after September 15, we are informed by Mrs. Lottie Rector, postmaster.

Margaret Darden returned home with Lieutenant and Mrs. W. H. Pickron last Monday for a week's visit at Shreveport, Louisiana.

Melvin Hunter has returned from a tour of East Texas, Arkansas and Louisiana. He reports fine rains over that country.

Mr. and Mrs. J. B. Jayroe and daughter of Rotan and Mr. and Mrs. Louis Earl Madden of Hamlin were visitors in the home of their mother, Mrs. Vera Jayroe, last Sunday.

Ernest Hendon of the Navy is visiting his mother for a few days. He is stationed at Corpus Christi.

Howard Faught, Burl Potts, Allan Griffith, Buford Griffin and Holman Boyd visited the Carlsbad Caverns last week.

Velma Lou Boyd left last week for Coleman, where she will teach in the Coleman Schools. Her father, L. H. Boyd, accompanied her and also visited relatives at Lampasas.

Mr. and Mrs. S. E. Miers spent last Sunday night in the home of their son, N. D. Miers, and family in the Hobbs community.

Peggy Jane Humphries visited this summer in the home of her grandparents, Mr. and Mrs. J. O. Jones, near Lubbock and at Temple in the home of Mr. and Mrs. Martin Humphries.

McCauley High School football team was out for practice last Monday and will continue through the week. McCauley School opens next Monday, September 9.

Mail Overseas Packages Soon

Christmas packages destined to reach members of the armed forces now serving overseas should be mailed between October 15 and November 15 in order to reach their destination by Yuletide. Postmaster Perry Sparks reminds Hamlin area relatives and friends of people in the armed forces. No request for packages is required now, as during the war.

Lee R. Carter Arrives Home with Navy Button

Lee R. Carter, son of Mr. and Mrs. Bill Carter of Hamlin, arrived home Tuesday with a discharge from the Navy.

Receiving his training at the San Diego, California, Naval Training Station, young Carter was stationed at Camp Elliott, California, during most of his 23 months' service in the Navy. He was yeoman third class at the time of his discharge last week.

Colorful print hand-made handkerchiefs at The Book Shop. Just right to tuck in a birthday card. 1c

Blanton Expresses His Thanks for Area Vote

I wish to extend my congratulations to Omar Burleson on his victory.

To the 20,000 voters who gave me their support, and especially to those who worked actively in my behalf, I give my heart-felt thanks.

I ran this race without the support of any organization, business, labor or otherwise, and I feel that I did well to win such a large vote on an individual basis. So far as my part of it was concerned, the race remained free from attacks on personal character, and I have no regrets.—William W. Blanton.
